### TOT SPECTRUM PLAN APPROVED

The National Broadcasting and Telecommunications Commission's telecom committee yesterday acknowledged TOT's management plan for 60 megahertz it holds on the 2.3-gigahertz spectrum, according to NBTC secretary-general Takorn Tantasith.

TOT has searched for a strategic partner to launch fourth-generation cellular services on this band.

So far 13 companies have picked up the terms of reference to bid to become TOT's partner. Among them are Advanced Wireless Network, a subsidiary of Advanced Info Service; DTAC TriNet, a subsidiary of Total Access Communication; and TrueMove H Universal Communication and Real Move, both part of the True Corp group.
