

AIS offers the 700 Mbps data speed on 4.5G

Customers purchasing the Samsung Galaxy S8 and S8 Plus from AIS will have the opportunity to experience blazing speeds of up to 700 Mbps on AIS 4.5G network made possible by MIMO 4x4 with CA technology and 256 QAM beginning May 2017.

MIMO 4x4 technology allows users

First in Thailand! AIS excites mobile users by bringing 700 Mbps data speed on AIS 4.5G network, delivering the fastest speed and best coverage in Thailand. And soon, AIS network will enable speeds of up to Gigabit.

to send and receive data 4 times faster than regular 4G network, while technology 256 QAM will provide better data compression, resulting in 30% faster internet connection reaching Gigabit speed with extremely high stability.
